

THE KINGDOM OF KURU

THE GREAT RACE

ABOUT US

Brian Ollison (left) has a background in UI/UX and illustration. He is passionate about increasing diversity and equity across the tech industry.

Kym Pressley (right) developed the game to bring a smooth and fast-paced experience with intuitive controls while bringing back memories of our favorite retro platform games.

OUR STORY

Games have been a part of our lives for as long as we can remember. Some of our best memories growing up involve playing Donkey Kong Country and Mario Kart with our friends and family. These games have easy controls and memorable characters.

When we think about the gaming industry's current state, we've observed exciting potential with accessibility through mobile and the rise of esports, but we've also noticed some issues. There are a low number of mobile multiplayer platform games and a lack of diversity with game characters and within gaming companies.

Seeing this gap, we've created a kid-friendly multiplayer game called the Kingdom of Kuru that adults can enjoy as well. It is now available on iOS.
